

EDUCATION IS THE MOST WONDERFUL KEY TO SUCCESS

-Liya Ann Lalgi (V J M.S)

Education is the most wonderful key to success. Education makes us aware of knowledge, skills, ethics to progress and develop further.

As Nelson Mandela says, “Education is the most powerful weapon which you can use to change the world.” Education is the key to eliminate gender inequality, to reduce poverty, to create a sustainable planet, to prevent needless deaths and illness, and to fostering peace.

Education plays a significant role to design your future as a successful person in life and as a useful citizen in the society. No one can neglect the importance of it. Education reduces the challenges of life that one might face.

When you have more knowledge and degree, there will be more opportunities for you to accelerate your professional and personal growth in life. Education is becoming very important for career building in this era. A person who acquires higher education will have more skills, capable of doing multiple tasks as well as meet the job requirement. Such a person is also aware how to balance personal and professional life.

Education is important because it gives a different perspective on life and establishes a personal opinion after analysing the situation. It helps society to develop socially and economically. Also, latest technologies are developed and used in different areas like health, economy, military and other business. Educated doctors find the cause and solutions to the dangerous diseases, cause, and prevention method of these diseases.

Education is very important to build a stronger nation bringing prosperity and unity. People will not make difference between right and wrong until they are educated. It is clearly shown no person can open the doors of opportunities and success in life without being educated. Having a scholarly background not only gives a knowledge of a particular subject but also it teaches us the core values and ways of living. Self-respect and basic rights of human beings are the benefits of educated people.

We can say that education is a success factor for civilization, socialization, professional and personal growth. It teaches us the manners of living. In the past, people had success without education and used alternative ways for it, but their success as were temporary. The key to success usually depends on educated people. So if a person wants a divine success than education is compulsory.

When you are able to get an education it will help you to better analyse yourself and you're skills, so you can excel. Education also gives a sense of management and patience. It is the ultimate way to improve communication skills, enhance your perspective, and refine you're personal skills as well as you're technical skills.

Education is very important to bring prosperity, unity and to build a stronger nation. People will not make difference between right and wrong until they are educated. It is clear that no person can open the doors of opportunities and succeed in life without being educated.
