## **MY DREAM**

When you dream big with all your heart, you'll be able to achieve big. Miracles start to happen when you give your soul and energy to your dreams.

Life is not guaranteed to be easy, never turning out the exact way that we want it to be. Life is not about the amount of money that we save but it's about what we do to make a difference and how we will make a lifetime worth it.

My plan in life is to become a 'Police Officer'. Not only will it give me an opportunity to help other people, it will also give me an excitement and thrill.

Becoming a Police Officer means, that I would become a justified employee of the police force. As a Police Officer, I would typically be responsible for placing criminals under arrest, looking for crimes and preventing them before they can happen, protecting the community and its property, and many more exciting responsibilities.

I have heard that Police job can be stressful and dangerous, because there is always a chance of being injured, but I feel all that is definitely worth it in the end. Police Officers have always been a part of history.

I am indeed thrilled to go through this journey of education, which is a stepping stone to achieve my aim of becoming a police officer.
