### WHY I LOVE BEING STUDENT

I love being a student because I want to study a lot and get more better grades.

It is also very fun to play with my friends.

My teachers are very kind to me, my teachers make me smart everyday.

My teachers always make everyone happy.

I always try my best to do hardwork and I wont give up.

That's why I really love to be a student.

If I study good and become a doctor, I will help the society, my community and my country.

I will help the poor and the needy.
